SUBJECT: UPDATE TO FY10 1206 FUNDS REQUEST FOR HUNGARIAN
SPECIAL FORCES CAPABILITY DEVELOPMENT

REF: A. STATE 92407
[1](#)B. BUDAPEST 723

Classified By: Political officer Jon Martinson, reasons 1.4 (b,d)

[1](#)1. (U) Post has submitted a request for 10.2 million USD in 1206 funding to materially increase the Hungarian Special Operations Forces (SOF) capabilities for combined operations in campaigns in key theaters worldwide, with priority on deployments to Afghanistan. The Country Team has reviewed the request and strongly supports the document submitted to EUCOM for approval. Post is not aware of any credible evidence of gross violations of human rights by the units who are proposed to receive assistance. The request will fund a Special Forces Qualification Course (SFQC) and equip the second Company of Hungary's Special Forces battalion. Hungary has invited partner nations to attend the SFQC in CY [1](#)2010.

[1](#)2. (SBU) This request has strong Chief of Mission support. The U.S. and its NATO/ISAF partners need more SOF units that will deploy in support of U.S. and NATO strategic goals in Afghanistan. These units are critical to achieving those aims. By using 1206 funds for this program, the USG will enhance its strategic partnership with Hungary, increase the level of deployed SF troops, and build an important regional training capacity that will further increase SF capabilities in the future.

[1](#)3. (C/NF) Hungary has deployed its Special Forces units, without national caveat, to participate in combined operations in Afghanistan. As Hungary's first deployment of troops in a combat role since WWII, this commitment is highly significant. Support for this 1206 request will signal USG support for the GOH in this vital and essential area.

[1](#)4. (C/NF) Hungary's demonstrated level of political commitment fully justifies this investment. Hungary's military and civilian leaders have consistently adopted policies which place it firmly within the trans-Atlantic community. According to recent Embassy reporting, senior

officials are certain this orientation and these deployment policies to continue even if the government changes after parliamentary elections in spring 2010. Hungary's Afghanistan policy is one area which enjoys wide political support in an otherwise fractured political environment. In early September, Minister of Defense Szekeres confirmed to SECDEF Gates his intention to maintain deployments at their current level, despite draconian budget cuts. The GOH has already extended its PRT mandate through October 2010 and its OMLT mandate through August 2010. Additionally, senior Government officials state that in December, after the national budget process is completed, the deployed Special Forces contingent's mandate, currently scheduled to end in February 2010, will be extended through the end of 2010. This 1206 investment is fully justified by the expected deployments, policy outcomes, and developments in partner capacity.

15. (C/NF) Hungary's SF units are conducting the full range of missions from military assistance (or foreign internal defense), to special reconnaissance, to direct action. This versatility means that this request is justified under either the stability operations or the counter-terrorist side of the 1206 funding authority. While the request was sent in under stability operations, the Country Team strongly believes that decision-makers are fully justified in using counter-terrorist rationale as well. The capability will in fact be used in both roles. This position has been coordinated with USEUCOM.

16. (U) Office of Defense Cooperation Budapest POC for this project is Colonel Lawrence J Kinde at 3630-274-8742 or

LKINDE@SAN.OSD.MIL. Embassy POC is Jon Martinson,
